SX9 Solar Therm

Light–Powered Digital Thermometer ● NEMA–4X/IP65 Case

▶ **Light Powered
No Batteries Required**

▶ **Large LCD °F/°C
Switchable Display**

▶ **Cast Aluminum Case
NEMA-4X/IP 65**

▶ **Min/Max Feature**

The Trerice **SX9 "Solar Therm"** now comes standard with a NEMA-4X case, making it the perfect choice for outdoor applications and in areas that require "spray-down." The **SX-9** is the ideal replacement for existing mercury-in-glass thermometers in environmentally conscious applications. It features a rugged cast aluminum case, easy to read LCD display and an adjustable-angle stem that is fully interchangeable with industrial liquid-in-glass thermometers. Also available is a bimetal type stem for applications where a digital thermometer is preferred over existing analog bimetals. The **"Solar Therm"** requires no external power and needs only 10 lux of illumination to operate. The unique Min/Max feature provides instant recall of minimum and maximum temperatures over a given period and is easily reset.

- Optional features available: Please consult the Options & Accessories Section for details.

Thermowell
- For applications where the process media may be corrosive or contained under pressure, the use of a thermowell is required to prevent damage to the thermometer and facilitate its removal from the process. (Refer to page 152)
